Pop Culture Classroom Supporter,

A ground-breaking woman in the U.S. automotive industry, [Helene Rother](#) is not always highlighted in history class. High School Students want to change that.

Experience Helene Rother's captivating story! [Download Helene Rother: Automotive Design Pioneer comic and teaching guide.](#)

Explore the story of Helene Rother, a towering figure in the history of automotive and consumer design, and whose story is rarely told!

A mother and refugee who fled the Nazis in Europe, Rother revolutionized the automotive industry with her emphasis on design and comfort.

At a time when few women worked in the auto industry, Rother fundamentally reshaped how cars were designed and marketed.

Download the Comic

[Helene Rother: Automotive Design Pioneer](#) was conceived and written by Arvada High School students (and siblings) Silo and Kerra Chamberlain through a special in-class project.

Their script was brought to life with lettering by R. Alan Brooks and bold, retro-style artwork from Scorpio Steele (Image Comics' *Rain* and cover artist for DC Comics' *Penguin* #1).

As with all issues of *Colorful History*, each download includes:

- The 4-page comic
- Endnotes
- A teaching guide with discussion questions, project ideas, media pairings for further research, and Common Core standards alignments
- The script and process art for students interested in how comics are made

The World of A.I.

Estimated Lexile Levels:

- Comic: 1010 – 1200
- Endnotes: 1010 – 1200

Projects and discussion questions are aligned to Common Core standards for grades 8-10.

It is an absolute privilege to do what we do.

Providing students with opportunities for creative self-expression and highlighting significant historical figures who students might not otherwise learn about is so important. But our work isn't possible without you.

Thank you for being a part of our work! Thanks for all you do for the kids and teens of your community,

Matt Slayter

Director of Education
Pop Culture Classroom
